CADASTER REFORM

- Continuation of the Cadaster reform from 2018, when with the support of the Good Governance Fund of the British Government (GGF), **eCounter** was introduced - that is, property registration through public notaries who send data ex officio to the Cadaster
- As of January 1, 2020, with the support of NALED and GGF, **filing of tax returns for real estate transactions was abolished** - data for determining taxes are given to the public notary during the contract verification
- 2 additional counters closed, savings of at least 6.5 million euros in the next four years for about 120,000 sales and inheritance proceedings per year, trainings held for nearly 200 local tax administrations representatives

DOING BUSINESS

Serbia ranked 44th in the World Bank's Doing Business report for 2020, which is 4 placements up compared to the previous year - NALED, as the coordinator of the Joint Working Group for DB, worked on drafting an Action Plan to improve Serbia's rank and provided support to institutions in implementation

DOING BUSINESS

Serbia ranked 9th in the area of construction permits - the best result in history after the amendment of the Law on Republic Administrative Fees, at NALED's initiative, the fee for location conditions was halved

Advances in other areas in which NALED contributed: protection of minority shareholders (from 83rd to 37th place after amendments to the Companies Act), accepted amendments to the Bankruptcy Law (eight placements up) and more efficient procedure for obtaining connection to electricity connection (10 placements)

The Joint Group formulated an Action Plan for entering the top 10 countries: introduction of full e-registration of companies, eSpace for the adoption of spatial and urban plans, and fully up-to-date cadastre.

COUNTERING SHADOW ECONOMY

With the support of members of NALED and the Fair Competition Alliance, the Government of Serbia adopted a new **National Program and AP for the combating SE 2019-20**, with 36 measures and 153 activities aimed at reducing the gray zone by 200 million euros.

COUNTERING SHADOW ECONOMY

Entrepreneurship support and fiscal burden reduction

- Through the Start legally program, which was initiated by NALED, 780 new companies were opened with tax exemption in the first year of operation, savings of up to 250,000 dinars per year
- At the beginning of 2020, the Entrepreneurship Champions competition of cities and municipalities was organized by NALED and RSJP, under the Government's auspices and with the support of GIZ - promotion of local and national support programs
- New project for reforming parafiscal charges with the support of USAID - NALED creates recommendations for the systematization and creation of a public register

COUNTERING SHADOW ECONOMY

- **Strengthening inspection oversight**
- Nearly **50 meetings of working groups** of the Coordination Commission for Inspection Oversight in 2019, donor support for the work of the CC Support Unit (EBRD), guidelines for the implementation of agreements on the recognition of violations for 5 inspections (Embassy of the Netherlands), workshops for improving regulations for administrative, inspection and judicial supervision (Embassy of Norway).
- The EBRD supported the introduction of a unified **Contact Center** for Inspections. In three months, 4,500 reports were sent, mostly to the Market Inspection: complaints about price gouging, rejected complaints, unregistered retail sales, non-issuance of invoices.
- Phase II of **eInspector** software implementation started with the support of UNDP; in addition to the 36 existing ones, 5 more inspections of the Ministry of Agriculture were connected, and risk analysis modules were developed.

COUNTERING SHADOW ECONOMY

- **Cashless payment**

- In cooperation with the Office for IT and eGovernment and with the support of the Visa and Mastercard companies, a campaign and competition of local governments in encouraging card payments at the LG counters was realized.
- POS terminals introduced in 60 cities and municipalities, during 6 months their citizens paid 13,500 charges, fees and taxes worth more than 20 million dinars, up to 500 days of savings

E-GOVERNMENT DEVELOPMENT

E-GOVERNMENT DEVELOPMENT

- NALED coordinated the creation of the **eGovernment Development Program and Action Plan for 2020-2022**, in cooperation with Ministry of Public Administration and Local Self-Government and the Office for IT and eGovernment, and with the support of the Good Governance Fund through UNDP and the European Union
- The program provides the introduction of 300 new eGovernment or mGovernment services for 1.5 million citizens and businesspersons, and an electronic mailbox
- NALED participated in the Government Working Group for Office Business Reform – a unified Regulation that treats e-document as primary was adopted in 2020, and in working groups for trade and e-commerce laws, adopted in mid-2019.
- After 120 years, a new Law on Archival Materials and Archival Activities was adopted, businesses have been enabled to keep business documentation in digital form, even if it was originally created in paper form, saving millions of euros a year just for printing.

AGRICULTURE DEVELOPMENT

5 MEASURES TO SUPPORT AGRICULTURE

How to reduce red tape and ensure production continuity during and after COVID-19?

1.

Enable farmers and beekeepers over 65/70 to access their holding/apiary

2.

Extend the duration of farmers' movement permits during curfew to at least two weeks

3.

Increase the number of days for simplified hiring of seasonal workers in agriculture from 120 to 180 days

4.

Support the online sales system for agricultural products and establishment of alternative channels for placement of goods

5.

Introduce a special subsidies package for the food and agriculture sector and enable eAgrar electronic application for incentives

AGRICULTURE DEVELOPMENT

- **Seasonal employment reform**
- NALED and GIZ submitted to the Tax Administration a software for electronic registration of seasonal workers via the www.sezonskiradnici.gov.rs website and mobile applications; in 2019, 26,000 workers were registered through the system (close to 40% of all seasonal workers in agriculture).
- After the success in Serbia, with the support of GIZ, the expansion of the model to SEE countries was initiated - Albania, Montenegro, North Macedonia.
- **eAgrar and Farm Register**
- NALED prepared a functional analysis and recommendations for the introduction of the electronic Farm Register and the eAgrar system for the allocation of subsidies; recommendations for optimization adopted by the Ministry's Working Group.
- In cooperation with the Association of Beekeeping Organizations of Serbia, the signing of the **Declaration on the Protection of Bees** was initiated - cities and municipalities have committed themselves to introducing measures for the protection of bees at the local level.

HEALTHCARE IMPROVEMENT

HEALTHCARE IMPROVEMENT

- The first Gray Book of Healthcare was published with 50 recommendations in 3 areas: healthcare services, healthcare financing and capacities and availability of medicines
- Priority recommendations proved to be crucial even during the crisis: digitalization of services for citizens and businesses, greater involvement of the private sector...
- Within the Second Health Project supported by the World Bank, more than 200 visits to healthcare institutions, focus groups, research were realized, in order to develop a **Healthcare Network Optimization Plan** - joint work of NALED and Delta House (Croatia) and IBF (Belgium)

10 RECOMMENDATIONS FOR MORE EFFICIENT HEALTHCARE DURING AND AFTER COVID-19 EPIDEMIC

1. Define mechanisms and procedures for urgent import of medical devices and medicines	2. Establish a platform for public private dialogue in policy-making during the crisis
3. Enable electronic registration of sick leave for employees and introduce eDoctor's Notes	4. Enable electronic extension of the ePrescription for chronic diseases

5. Introduce total digitalization of procedures related to medicines and medical devices	6. Define the import procedure for medications not licensed in Serbia, for more than 5,000 boxes
7. Enable COVID-19 testing in private healthcare institutions	8. Enable treatment of COVID-19 patients in private healthcare institutions
9. Enable smaller interventions to be performed in private institutions and reduce the waiting lists	10. Define the eHealthcare development strategy in Serbia

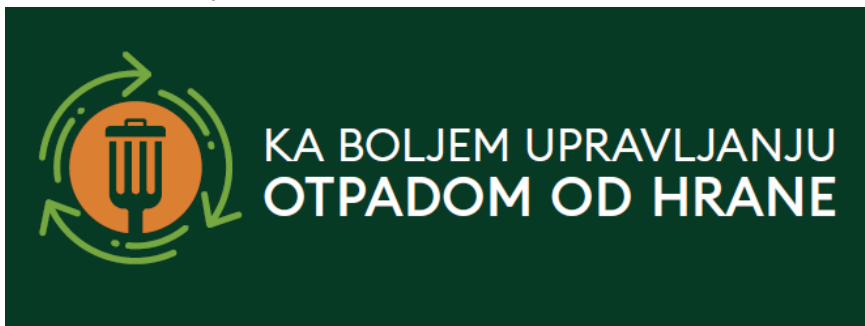

ENVIRONMENT PROTECTION

• ENVIRONMENT PROTECTION

- At our members' initiative, at the end of 2019, the **Environment Protection Alliance was formed** - the largest alliance with 40 companies and local governments
- Through the “Towards Better Electrical and Electronic Waste Management in Serbia” project with the support of GIZ ORF, Coca Cola and Gorenje, **more than 1,500 companies were introduced in the e-register for the environmental tax payment**
- With the support of GIZ and businesses, **5 new thematic projects were launched**: for food waste management (Esotron), glass packaging (Sekopak-SRB, Ekopak-B&H and Pakomak-N.Macedonia), e-waste, special waste streams, as well as and for recycling batteries and light bulbs (Božić i sinovi and E-reciklaža)

CUTTING THE RED TAPE

CUTTING THE RED TAPE

- The 12th edition of the Grey Book with 100 businesses' recommendations was published; since the last edition, the institutions have **resolved 17 recommendations** (40% more than in 2018)
- In addition to **flat-rate taxation reform**, abolishing tax returns and electronic storage of business documentation, several other priorities for digitalization of public administration were realized: **electronic issuance of tax receipts** was enabled, and **electronic registration and signage fee payment** through the local tax administrations websites lpa.gov.rs
